

NAU Campus Living Community Policies (Interim)

In Campus Living Communities, we create a welcoming and vibrant campus living experience where community members connect, explore, and belong. Through safe, well-maintained facilities, excellent service, meaningful staff interactions, and engaging events we invest in the transformational growth, personal responsibility, and academic support of our community members. Our policies, approaches, and interactions are guided by our four foundational values: Community and Connectedness, Care and Support, Learning and Development, and Equity and Inclusion.

The **Campus Living Community Policies** are expectations laid out for all individuals living in a Campus Living Community at Northern Arizona University. By signing a License Agreement with Campus Living, you have agreed to abide by these expectations. It is important that you are familiar with the policies contained in the [Campus Living Community Policies](#). You are encouraged to talk with Campus Living staff if you have any questions or concerns.

Summary of Policies
