

PROJECT ABSTRACT

Colorado Plateau Cooperative Ecosystem Studies Unit
(Cooperative Agreement # H1200-004-0002)

Park: Bryce Canyon National Park

Project Title: Soundscapes of Bryce Canyon National Park - Phase II

Funding Amount: \$52,000

CPCESU Partner Institution: Southern Utah University

Principal Investigator:

*Britton Mace, Ph.D.,
Southern Utah University, Dept of Psychology
351 W. Center St., CG 308
Cedar City, UT 84720
mace@suu.edu

Start Date: 6/01/2008

End Date: 6/30/2010

Continuation of Project SUU1 - Task Agreement J1330060018

Abstract:

This project will result in Bryce Canyon National Park (BRCA) gaining knowledge of the relationship between the soundscape environment (natural and human produced sound) and the social scientific variables that influence visitor enjoyment of the park. This project will provide a clear understanding of what factors are important in managing soundscapes within the acoustic zones of BRCA.

Keywords: Air/Weather/Noise #1,2
