

## **Report of Task Agreement # J8100080205**

**Park:** Tuzigoot National Monument/ Tumacacori National Historic Park

**Project:** Provide Exhibit Assistance

**Investigator:** Beth Grindell, Rich Lange

**Project Number:** UAZCP – 160

**Cooperator:** Ms. Margaret Kipling

### **Final Project Report**

The cooperator performed a condition survey of the original Tuzigoot National Monument exhibit list. Many of these objects were determined to be too fragile for exhibit, and the cooperator and WACC Registrar worked with the exhibit curator to suggest alternate objects.

The list was revised, and a total of 115 objects were surveyed. Treatment was performed on 23 objects, with the assistance of volunteers Crystal Burnett and William Shelley. A total of 78 objects were packed for transport by the cooperator, with the assistance of cooperator Audrey Harrison. The WACC Conservator transported these objects to Flagstaff in July 2008.

Exhibit construction is not yet complete, and the park has requested that WACC continue to store the ollas. The cooperator, assisted by cooperator Audrey Harrison, packed these 15 objects in December 2009. These will be transported by the cooperator when construction is complete (estimated May 2010) as part of UAZCP-121.
