Park: Chiricahua National Monument
Project: Collection Condition Survey
Investigator: Beth Grindell, Rich Lange
Project Number: UAZCP – 161
Cooperator: Ms. Margaret Kipling, Ms. Audrey Harrison

Final Project Report

The cooperators performed a collection condition survey of objects at Chiricahua National Monument: on exhibit at Faraway Ranch, in the visitor center, and in storage at the park. Survey was performed on-site from Feb 2-6, 2009 and from April 28-May 1, 2009. Some objects, recently removed from exhibit and transported to WACC, were also included in the survey. The WACC portion of the survey was completed in May and December 2009.

The survey was entered into a Filemaker Pro database, and included information about the current condition, treatment priority, proposed treatment, estimated treatment time, and level of expertise required.

The cooperators and the WAAC Conservator together performed an item-level survey of a total of 1700 objects.
