Report of Task Agreement #J8100070199

Project: Confirm Tuzigoot National Monument NAGPRA Inventory II

Investigator: Rich Lange

Project Number: UAZCP-170

Cooperator: Anne Iverson

Final Project Report

Word document format was designed to replicate original report produced by obsolete NAGPRA Module of ANCS+. Final report was created including all newly updated information found through research during the initial project phase of the project, Confirm Tuzigoot National Monument NAGPRA Inventory.

Spreadsheet was created for Arizona State Museum (ASM) of corrections and updates to information related to their material from Tuzigoot Pueblo and Hatalacva. Relationships to items in the Tuzigoot National Monument (TUZI) collection were also noted.

The TUZI database was updated with all changes and corrections to provenience, NAGPRA designations, and associations.

Project was completed in October 2009.
