ARTICLE I – BACKGROUND AND OBJECTIVES

Cooperative Agreement Number P14AC00921 was entered into by and between the Department of the Interior, National Park Service, (NPS), and University of New Mexico (hereafter referred to as ‘Recipient’) for the purpose of providing research, technical assistance, and/or education, as described below. Unless otherwise specified herein, the terms and conditions as stated in the Cooperative Agreement will apply to this Task Agreement.

For performance under this task agreement, the regulations set forth in 2 CFR, Part 200, supersedes OMB Circulars A–21 (2 CFR 220), A–87 (2 CFR 225), A–110, and A–122 (2

CFR 230); Circulars A–89, A–102, and A–133; and the guidance in Circular A–50 on Single Audit Act follow-up. The recipient shall adhere to 2 CFR, Part 200 in its entirety in addition to any terms and conditions of the master agreement not superseded by 2 CFR 200, as well as the terms and conditions set forth in this agreement. In the event of a conflict between the original terms of the master agreement and 2 CFR, Part 200, relating to this task agreement, 2 CFR, Part 200 shall take precedence.

A. Project Title:

Developing Skills and Methods for Landscape Scale Inventory and Evaluation of Cultural Resources

B. Project Description:

Background: Cultural resource inventory clearance and management is generally undertaken at the project level to fulfill the requirements of (NHPA) Section 106. Federal land managers including the National Park Services are rapidly moving towards a landscape-scale approach to resource assessment and management. We incorporate powerful data bases such as LANDFIRE in assessing condition and technical approaches to data acquisition such as LiDAR to assess, evaluate, collaboratively plan and implement natural resource management over broad ecological and multijurisdictional landscapes. These tools are being applied on the Valles Caldera National Preserve (VALL) to improve the efficiency and quality of our efforts to restore the resiliency of the preserve’s natural systems. There is a need to incorporate a landscape-scale approach into a student’s curriculum, especially at the graduate level.

Project Description: Through this cooperative effort, we are proposing to establish a professional development opportunity for students of archaeology and anthropology at the University of New Mexico to gain practical experience and increase their knowledge, skills and abilities in approaching the assessment of cultural resources at the landscape scale.

This project would engage students and the University of New Mexico (UNM) Office of Contract Archaeology (OCA) team in reviewing landscape-scale natural resource data and existing cultural resource data for the purpose of proposing a strategic plan for creating an integrated landscape-scale approach to inventory, monitoring and evaluation of cultural resources and compliance with Section 106 of the National Historic Preservation Act. Based on this project we would plan a second phase of the project – to work with students to test and refine this approach on the VALL Resilient Landscapes project.

C. Public Purpose:

This project fulfills a Public Purpose of support or economic stimulation via the following CESU objectives:

1. The project engages students and UNM and the UNM/OCA in shared environmental stewardship as part of the Resilient Landscapes program on VALL. The overall VALL Resilient Landscapes program has 23 official

- collaborating groups/agencies, and the UNM/OCA project will be integrated with projects and participation of these many collaborators. Students will have access to land managers, as well as researchers and other students, allowing them to explore the relationships among human use, occupancy and natural resources at the landscape scale within a unique system (volcanic caldera).
2. The scientific community and/or researchers external to NPS will gain new knowledge provided by these efforts through the dissemination of natural, cultural and/or historical resource information. The project will (1) provide usable knowledge to support informed decision making by integrating a landscape-scale approach to evaluating cultural resources; (2) create and maintain effective partnerships among the federal agencies and universities (including students) to share resources and expertise by fostering and expanding an existing partnership between the Valles Caldera National Preserve and UNM/OCA, and (3) manage federal resources effectively by providing information and decision support for landscape-scale approaches to management that integrate our evaluation of cultural and natural resources at similar scales.
 3. NPS will have a Substantial Involvement in the project: NPS is involved with the recipient in describing the goals, and in jointly developing the scope and the activities to be accomplished. NPS staff at VALL will be sharing existing site and GIS data, and will provide technical assistance with field site selections, sampling design, performance requirements, coordination with crews, and assistance with field work as needed to ensure the success of the project.

ARTICLE II – LEGAL AUTHORITY

54 U.S.C. §101702(a) Cooperative Agreements, Transfer of Services Appropriate Funds

54 U.S.C. §101702(b) Cooperative Agreements, Cooperative Research and Training Programs

54 U.S.C. §100703 Cooperative Study Units

ARTICLE III – STATEMENT OF WORK

A. Statement of Work:

Students and UNM/OCA staff will work closely with the VALL cultural and natural resource staff to retrieve corporate cultural resource datasets including GIS and tabular data. Continuing to work in consultation with VALL cartography, cultural and natural resource specialists, students and UNM/OCA staff will design a strategy including a schedule and budget for a landscape-scale approach to the assessment, monitoring and evaluation of priority treatment areas for restoration. This strategy will consider conceptualizing and initiating the development of a sensitivity model (modeling the applicability of sampling approaches vs. total survey coverage) to improve the efficiency of planning and execution of pedestrian surveys, establishing monitoring sites for measuring the effectiveness of mitigation measures in protecting cultural resources from the effects of planned restoration activities, and finally completing cultural resources

inventory on approximately 5000 acres of priority treatment areas (treatments include integrated forest thinning, biomass disposal, road closure and/or maintenance, riparian restoration, post fire rehabilitation, and other related similar activities).

B. Project Schedule and Products:

This compilation and review of data would be completed over the final quarter of FY 15 and first quarter of FY16.

1. September 2015 – VALL staff will review the corporate data available for the VALL with students and UNM/OCA.
2. Based on their review of the available data, students and UNM/OCA will develop a strategy and schedule in support of the VALL completing Section 106 compliance for landscape scale restoration of priority areas on the VALL. The strategy will include estimated time and budget including logistics, noting uncertainties for the following:
 - ✓ Incorporating a sensitivity model to reduce costs and improve the efficacy of pedestrian survey
 - ✓ Completing pedestrian survey
 - ✓ Preparing reports
 - ✓ Establishing monitoring sites
3. Work with VALL staff to refine strategy;
4. Prepare final report including schedule and budget for implementing strategy and a student development plan emphasizing understanding of landscape-scale approach to cultural resource management and skill development in planning landscape scale approach to project management.

C. Recipient agrees to:

1. Student recruitment and oversight;
2. Establishing student development objectives for this task;
3. Providing a draft strategy, schedule and budget for landscape-scale approach to Section 106 compliance for the VALL resilient landscapes project by February 28, 2016
4. Provide a final strategy, schedule and budget for landscape-scale approach to Section 106 compliance for the VALL resilient landscapes project by April 30, 2016.

D. NPS agrees to:

The NPS intends to have substantial involvement in the project: Developing Skills in a Landscape Approach to Section 106 Compliance

1. Substantial collaboration, review and understanding of corporate data;
2. Provision of resource specialists including: Physical scientist, Plant Ecologist, Hydrologist, Wildlife Biologist, Entomologist; as well as Archaeologists/Cultural Resources staff.

3. Working with students to ensure that the final strategy and approach is practical for implementation.
4. Complete a review of the draft report/strategy within 30 days of receipt.

ARTICLE VI – AWARD AND PAYMENT

A. Financial Assistance:

NPS will provide funding to Recipient in an amount not to exceed \$10,000 for the work described in Article III and in accordance with the approved budget (Attachment A).

B. Requesting Payment:

Recipient shall request payment in accordance with the following:

1. **Method of Payment.** Payment will be made by advance and/or reimbursement through the Department of Treasury's ASAP system.
2. **Requesting Advances.** Requests for advances must be submitted via the ASAP system. Requests may be submitted as frequently as required to meet the needs of the FA Recipient to disburse funds for the Federal share of project costs. If feasible, each request should be timed so that payment is received on the same day that the funds are dispersed for direct project costs and/or the proportionate share of any allowable indirect costs. If same-day transfers are not feasible, advance payments must be as close to actual disbursements as administratively feasible.
3. **Requesting Reimbursement.** Requests for reimbursements must be submitted via the ASAP system. Requests for reimbursement should coincide with normal billing patterns. Each request must be limited to the amount of disbursements made for the Federal share of direct project costs and the proportionate share of allowable indirect costs incurred during that billing period.
4. **Adjusting payment requests for available cash.** Funds that are available from repayments to, and interest earned on, a revolving fund, program income, rebates, refunds, contract settlements, audit recoveries, credits, discounts, and interest earned on any of those funds must be disbursed before requesting additional cash payments.
5. **Bank Accounts.** All payments are made through electronic funds transfer to the bank account identified in the U.S Treasury ASAP system by the FA Recipient.
6. **Supporting Documents and Agency Approval of Payments.** Additional supporting documentation and prior Agency (NPS) approval of payments may be required when/if a FA Recipient is determined to be "high risk" or has

performance issues. If prior Agency payment approval is in effect for an award, the ASAP system will notify the FA Recipient when they submit a request for payment. The Recipient must then notify the NPS Awarding Officer identified on the Assistance Agreement that a payment request has been submitted. The NPS Awarding Officer may request additional information from the Recipient to support the payment request prior to approving the release of funds, as deemed necessary. The FA Recipient is required to comply with these requests. Supporting documents may include invoices, copies of contracts, vendor quotes, and other expenditure explanations that justify the reimbursement requests.

ARTICLE VII – REPORTS AND/OR DELIVERABLES

A. Reporting:

1. Specific projects or activities within this agreement will be tracked and reported by annual submission of a SF-425 Federal Financial Report (FFR) and annual submission of a Performance Report. A final SF-425 and Performance Report shall be submitted at the completion of the Agreement. The following reporting period end dates shall be used for interim reports: 12/31. For the final SF-425 and Performance Report, the reporting period end date shall be the end date of the agreement. Interim reports shall be submitted no later than 30 days after the end of each reporting period. Annual and final reports shall be submitted no later than 90 days after the end period date. All reports shall be submitted via email to the NPS Awarding Officer with a copy to the NPS Agreements Technical Representative via email.
2. An electronic version of the final report and separate abstract suitable for public distribution will be submitted by the Recipient to the ATR. The ATR will send the final report electronically to NPS's Technical Information Center and carbon-copy the CESU Research Coordinator. Please send Catherine Kisluk at Technical Information Center (TIC) one hard copy and one digital copy of the final report and abstract. Mail the hard copy to: NPS Technical Information Center (TIC) 12795 West Alameda Parkway, Lakewood, Colorado 80228
Attn: Catherine Kisluk and email the digital version to catherine_kisluk@nps.gov and cc the CESU Research Coordinator.

(9) Nothing in this clause shall excuse the Recipient from compliance with any applicable Federal or State prevailing wage law or any applicable law or municipal ordinance establishing a minimum wage higher than the E.O. minimum wage. However, wage increases under such other laws or municipal ordinances are not subject to price adjustment under this subpart.

(10) The Recipient shall pay the E.O. minimum wage rate whenever it is higher than any applicable collective bargaining agreement(s) wage rate.

 - (B) Students whose wages are calculated pursuant to special certificates issued under [29 U.S.C. § 214](#)(b).
 - (C) Those employed in a bona fide executive, administrative, or professional capacity ([29 U.S.C. § 213](#)(a)(1) and [29 C.F.R. § part 541](#)).
- (d) *Notice.* The Recipient shall notify all workers performing work on, or in connection with, this agreement of the applicable E.O. minimum wage rate under this clause. With respect to workers covered by the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, the Contractor may meet this requirement by posting, in a prominent and accessible place at the worksite, the applicable wage determination under those statutes. With respect to workers whose wages are governed by the FLSA, the Recipient shall post notice, utilizing the poster provided by the Administrator, which can be obtained at www.dol.gov/whd/govcontracts, in a prominent and accessible place at the worksite. Recipients that customarily post notices to workers electronically may post the notice electronically provided the electronic posting is displayed prominently on any Web site that is maintained by the Recipient, whether external or internal, and customarily used for notices to workers about terms and conditions of employment.
- (e) *Payroll Records.* (1) The Recipient shall make and maintain records, for three years after completion of the work, containing the following information for each worker:

- (5) Nothing in this clause limits or otherwise modifies the Recipient's payroll and recordkeeping obligations, if any, under the Service Contract Labor Standards statute, the Wage Rate Requirements (Construction) statute, the Fair Labor Standards Act, or any other applicable law.
- (f) *Access.* The Recipient shall permit authorized representatives of the Administrator to conduct investigations, including interviewing workers at the worksite during normal working hours.

- (h) *Disputes.* Department of Labor has set forth in [29 C.F.R. § 10.51](#), Disputes concerning Recipient compliance, the procedures for resolving disputes concerning an Recipient's compliance with Department of Labor regulations at [29 C.F.R. § 10](#). Such disputes shall be resolved in accordance with those. This includes disputes between the Recipient (or any of its Subrecipients) and the contracting agency, the Department of Labor, or the workers or their representatives.

(i) *Antiretaliation.* The Recipient shall not discharge or in any other manner discriminate against any worker because such worker has filed any complaint or instituted or caused to be instituted any proceeding under or related to compliance with the E.O. or this clause, or has testified or is about to testify in any such proceeding.

(j) *Subcontractor compliance.* The Recipient is responsible for Subrecipient compliance with the requirements of this clause and may be held liable for unpaid wages due Subrecipient workers.

(k) *Subawards.* The Recipient shall include the substance of this clause, including this paragraph (k) in all subawards, regardless of dollar value, that are subject to the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, and are to be performed in whole or in part in the United States.
