The table below summarizes the names and departments of the top faculty/staff members who were acknowledged four or more times.

- Alban, Michael (4)**
- ♦ He is the best professor I've had he is wonderful and kind and a great teacher. He makes the information understandable and interesting and is always willing to help.
 - ♦ He shows that he cares about the students education and takes some time to get to know students in the classroom. He is patient and explains information thoroughly.
 - ♦ He's a very supportive teacher, he understands his students, and gives them opportunities both in class and for research. I really appreciate his enthusiasm to the subject.
 - ♦ We talked every day after lecture, discussing mental health, new discoveries in the field, and positive impacts of these discoveries.
- Anderson, Matt (3)**
- ♦ He helped me understand statistics in a new way and was also very understanding and caring about my disability. Every morning before class, we would discuss our lives and anything I was confused on. It truly gave me the understanding to receive an A in the course.
 - ♦ He really makes a genuine effort to help us understand the material. He goes above and beyond to help you with anything that you don't understand and is incredibly effective in his teaching methods. He helps in and out of the classroom, asking him any question that you may have about research or the department in general, he will make every effort to answer/ find someone to help you answer the question.
 - ♦ Matt helped me find a minor I was truly interested in. He encouraged me to switch minors and helped set up meetings for me to talk to past students. He is truly amazing!
- Filsinger, Thomas (2)**
- ♦ Helped me try see the world with a different perspective and to understand that everyone does what they do for a reason and to be understanding of them. Also that the way that you think about life has a huge impact on whether or not you enjoy it.
 - ♦ Incredible human and professor. Great energy. Makes you feel at home and like you matter.

- ♦ She has opened my eyes to another field and helped me see which career path I can take
- Patch, Emily**
- ♦ I have Dr. Patch as my PSY 240 (Developmental Psychology) instructor and she is excellent at introducing new, intriguing and relevant information to the class. I am taking multiple breadth psychology courses to zero in on the area of psychology I would like to pursue, and I can now confidently say that I will be working somewhere in the developmental realm. Dr. Patch's class is very engaging and the current research she presents inspired me to look into other research opportunities on campus.
- Sydeman, Summer (2)**
- ♦ Professor Sydeman is the first professor I've had that has given us useful information pertaining to graduate school and careers.
 - ♦ Shawn Morton makes me excited to learn. I went from hating Anthropology but having to take it for liberal studies to loving it so much that I made it my minor. He makes learning exciting and I have taken several classes with him and plan to take more. He's truly a unique person and professor and this university is lucky to have him. Sumner Sydeman also made me excited to go to class. He started out his class (Psy 215) by teaching us how to go about getting into grad school and what options were available to us, which I'd never had before. It was so helpful. He makes the learning environment interesting and friendly. He's a very cool guy. He also makes his tests hard so it motivates me to study more and actually work hard as opposed to just going with the flow. I appreciate both of them immensely.
- Whetten, Jason (5)**
- ♦ All 3 of these professors go above and beyond when making sure their students understand the material. They seem very dedicated to ensuring everyone understands and has a chance at passing the class.
