OVERVIEW

Founded in 1899, Northern Arizona University is a vibrant community committed to teaching as learning, research as innovation, and service as shared leadership. Northern Arizona University along with the University of Arizona and Arizona State University are governed by the constitutionally authorized Arizona Board of Regents and together constitute the Arizona University System. Northern Arizona University is a high research university with its main campus located on a 683-acre site in Flagstaff, Arizona. NAU Statewide sites are located throughout the state and online.

Flagstaff is a growing city of an estimated 67,468 residents (U.S. Census Bureau, 2012), located on the Colorado Plateau at an elevation of 7,000 feet. Immediately north of the campus are the 12,633 foot-high San Francisco Peaks, which feature a major winter sports center. The university is at the junction of Interstate Highways 40 and 17, less than a three-hour drive from Phoenix and about five hours from Tucson; Albuquerque, New Mexico; and Las Vegas, Nevada. Flagstaff is served by the Amtrak transcontinental mainline, one major bus line, and a regional airline. In addition, Flagstaff is the home of such renowned scientific institutions as Lowell Observatory, the U.S. Naval Observatory's Flagstaff station, the U.S. Geological Survey's Branch of Astrogeology, and the Museum of Northern Arizona. These institutions are active participants in the university’s educational and research programs. The university campus is surrounded by an environment of mountains, canyons, forests, deserts, lakes, and streams. Two major national parks, including the Grand Canyon, and six national monuments surround the Flagstaff area.

Northern Arizona University is dedicated to providing an outstanding undergraduate residential education strengthened by research, graduate and professional programs, and sophisticated methods of distance delivery. NAU has achieved national distinction as a leader in a number of areas, including environmental sustainability, innovative educational approaches, allied health professional education, and Native American educational partnerships. The university is also committed to student success, offering a number of academic planning tools to help students finish in four years and a guaranteed tuition program that ensures that students pay the same tuition over four years.

Northern Arizona University also partners with a variety of Arizona community colleges in an initiative called 2NAU to make it easier for students to complete their bachelor’s degree. Students can be admitted to NAU while completing their associate’s degree at their local community college. The Arizona community college partners for 2018-19 include Arizona Western College, Central Arizona College, Chandler-Gilbert Community College, Cochise College, Coconino Community College, Dine College, Eastern Arizona College, Estrella Mountain Community College, GateWay Community College, Glendale Community College, Mesa Community College, Mohave Community College, Northland Pioneer College, Paradise Valley Community College, Phoenix College, Pima Community College, Rio Salado College, Scottsdale Community College, South Mountain Community College, Tohono O'odham Community College, and Yavapai College.

The Statewide division secured a $1 million grant from the Lumina Foundation to develop a new model of competency-based bachelor's degree programing. The university's initial investment of $3 million then helped implement the model now known as Personalized Learning. Personalized Learning offers self-paced, competency-based, direct-assessment programs of study leading to a bachelor's degree currently in five disciplines: Management, RN to BSN, Small Business Administration, Computer Information Technology, and Liberal Arts. Additionally two master's programs are available: Master of Science in Nursing and Master in Computer Information Technology.
