## FSSE: Faculty Survey of Student Engagement

The Faculty Survey of Student Engagement (FSSE) was constructed to parallel the National Survey of Student Engagement (NSSE). The faculty version focuses on faculty perceptions of how often their students engage in different activities, the importance faculty place on various areas of learning and development, the types of interactions faculty have with students, and how faculty members organize class time. The pilot test of the FSSE was administered electronically as a web-only survey in spring 2003.

## Graduating Senior Survey

This survey assesses graduating senior student satisfaction and opinions about their experience at the university. Student satisfaction is measured in several areas: general academics, major department, faculty, skills development, advising, and experiences outside the classroom.

## NSSE: National Survey of Student Engagement Report

This survey focuses on assessing student engagement, of freshmen compared to seniors, in the areas of academic challenge, active and collaborative learning, student-faculty interaction, enriching educational experiences, and the supportive campus environment at the Northern Arizona University. This is a national survey with comparative data from other four-year colleges or universities.

## Sophomore Survey Report

This survey assesses sophomore student satisfaction and opinions about their experiences at the university. This survey is designed to assess the demographic characteristics, college related goals, hours per week spent working, frequency of classroom activities, importance of the instructors, satisfaction with service offices, as well as NAU's contribution to the personal growth of the university sophomore student.
