

ADAPTATION

CLIMATE ACTION PLAN UPDATE

4-6 PM ON THURSADY, NOV. 21 AT ASHURST HALL

Why does adaptation and resilience matter? We live in an ever changing world. Every single day the politics, technology, and climate around us is in a constant state of transition. It is vital that we create a plan for how we are going to adapt as a university. Join the City of Flagstaff Sustainability, NAU Office of Sustainability, and NAU Climate Science and Solutions graduate students from ENV 675 to learn more about adaptation, Flagstaff's current plan, and strategies from other universities to determine what we can do at NAU to best prepare for a changing future.
