The University of Arizona Cancer Center's Community Outreach and Engagement is hosting a series of town halls across our great state of Arizona to understand the needs and assets of communities regarding cancer prevention and control, treatment, and survivorship to inform cancer policy.

The town hall will be co-facilitated by Dr. Heather Carter (AZ State Senator LD 15) and Dr. Omar A. Contreras (UACC Program Director of Policy and Translational Research) and will serve as an opportunity to engage in a dialogue with community members, tribal health leaders, healthcare providers, educators, and elected officials to improve cancer care in the north central/east community of Arizona.

Event and registration are FREE, but seating is limited so kindly RSVP at https://uacc-townhall-flagstaff.eventbrite.com. Refreshments and food will be provided.

About the University of Arizona Cancer Center
The University of Arizona Cancer Center (UACC) is one of 50 comprehensive cancer centers in the nation and the only one with headquarters in and serving the entire state of Arizona. The UACC has been designated by the National Cancer Institute as a Comprehensive Cancer Center, the NCI’s highest designation. This designation is reserved for centers focusing on patient care as well as basic and clinical research, prevention, education, outreach and training.
