

## Late Submission Waiver Request Form

The Office of Sponsored Projects (OSP) requires that a complete sponsored project proposal package be received no later than four (4) business days prior to the sponsor's deadline to allow reviews for compliance with sponsor and University requirements and on-time submission to the sponsor (please refer to the [proposal submission guidelines](#)). When a sponsored project proposal package must be provided late to OSP, an approved waiver is required in order to proceed with this review and submission to the sponsor if at all possible.

### Waiver Request Information

Please complete this waiver request form for a late sponsored project proposal package review approval.

*All fields are required*
