CURRICULUM CHANGES

For assistance with curriculum changes that will appear in the Academic Catalog for your degree program or courses within your degree program:

- Please send a request with a description of the changes desired to: Lisa.Wischmeier@nau.edu
- A curriculum specialist will assist with filling out the necessary submission forms for you, return them to you, and work with you to prepare them for submission to the appropriate curriculum committees.
- Please be aware that deadlines for implementation of changes can vary widely. For the most successful implementation, please submit changes by the end of each Fall semester for activation in the following Fall semester.
