Statewide

Statewide-specific sessions do not apply during Summer.

More details about DD classes. Dynamically Dated (DD) classes do not fit within a regular session e.g., 16 week, 8 week, 5 week, etc. They can begin and end on almost any date. Dynamic Dating rules determine the deadlines (add, drop, withdraw) specific to that class. For this reason, DD classes are often confusing to students and are therefore recommended for only limited use—usually based upon the needs of external partners, such as school districts, hospitals, government agencies, etc. Dynamically dated sessions correspond with grade-posting cycles. Classes ending *before* midterm grading are associated with the DD1 session. Classes ending *after* midterm grading are associated with the DD2 session. [Summer has an additional DD session—DD3.] When choosing your DD session, base your decision on the End Date. Wait-listing is not available for DD classes.
