

Louie Class Capacity Error Transcript

Let's take a look at class capacity error in Louie. When enrolling in courses, you may encounter an error due to a course no longer having open seats, which will prevent you from enrolling in the class.

If you receive a red "X" accompanied by the message "Class XXX is full," that means the class is either full or waitlisted.

If the course appears to have seats available, but you still encounter this error, it likely means the course has reserved seats.
