

Louie How to Determine if a Class is Open, Closed, or Has Reserved Seating Transcript

Let's take a look at how to determine if a class is open, closed, or has reserved seating in Louie.

Search for any class in the "Class Search" in Louie.

Once you've begun your search, you should see at the top of the page five symbols and a key to help understand them.

For this video, we will be focusing on four of these symbols:

The red letter "R"

The green circle

The blue square

And the yellow triangle.

These icons will appear in every class section, under the column that says "Status".

If a class has a red "R" next to the number of available seats it has listed, it means some of those seats are being reserved for particular students. You'll want to search further class details to determine if you qualify to enroll in the class.

If a class has a green circle under the "status" section, it means the course is open and has available seats.

If a class has a blue square under the "status" section, it means the class is closed, and you will not be able to enroll in it nor will you be able to waitlist the course.

If a class has a yellow triangle under the "status" section, it means the class is full, but you can still get onto the waitlist for the class.
