b. The University may terminate the Contract, in whole or in part, with or without cause, upon thirty (30) days written notice to Contractor. Subject to the provision of any Transition Services (as defined below), upon termination, Contractor will refund to the University all prepaid amounts for Services not delivered or performed. If the Contract is terminated pursuant to this section, subject to the provision of any Transition Services, the University will pay Contractor, as full compensation under the Contract: (1) the portion of Services delivered or performed and accepted prior to the effective date of termination based on the unit prices in the Contract, or, if no unit prices are provided, the pro rata amount of the total order price based on the amount delivered or performed; and (2) a reasonable amount, not otherwise recoverable from other sources by Contractor, and as approved by the University, with respect to the undelivered, unperformed, or unacceptable portion of the Services. In no event will compensation paid previously under the Contract together with compensation paid under this section exceed the total purchase order or Contract price.

c. The University may terminate the Contract, in whole or in part, if Contractor defaults on any of its obligations in the Contract and fails to cure such default within seven (7) days after receiving notice of default from the University. In the event of such a default, the

University may procure the Services from other sources and Contractor will be liable to the University for any excess costs the University incurs.

d. e. Upon termination of the Contract or termination of any Services (regardless of the reason for termination), the parties will work in good faith to transition the terminated Services to the University or its designee(s), with minimum interruption to the University's business. At the University's option, Contractor will continue to provide Services and will provide transition support at rates consistent with the terms of the Contract for a period of no longer than one-hundred and eighty (180) days following the termination date (the Transition Period). Contractor will provide the post-termination Services (the Transition Services) at least at the same levels of quality and timeliness of performance as Services were provided prior to termination, in a professional manner, with high quality, and in accordance with industry standards. The parties may, by written agreement, modify the Transition Services to be provided and the length of the Transition Period.
