Call to the Audience

Item A: High Pine Awards - Jo Williams

Club Manager, Jo Williams: The High Pine Awards is an end of the year banquet that recognizes clubs for their hard work throughout the year. There are 20 awards clubs can nominate themselves for. There will be club performances, snacks, and a photo booth. This year the event theme is red carpet. All clubs are welcome to participate.

Unfinished Business

Item A: SB 31-136: Kendall Mesa

Speaker: I am seeking reimbursement for a trip I took to Los Angeles about two weeks ago. The trip was to go to LAX and I was then flown to Australia for a training to run a program back here on NAU's campus. It's called AIM. It's a mentoring program that started in Australia that they are now bringing to the U.S. We partner with a high school and mentor a certain demographic of students facing inequality. The demographic that we chose were students with mental health disorders. I think that being able to be

trained there will help me run the program successfully here and help these high school students.

Motion: Senator Hernandez

Second: yes

Discussion:

VPAA Marks: The questions that we had we why the dates of travel were the same as the dates of the event.

Kendall Mesa: The dates of travel from her to Los Angeles were two days prior and the actual event was I believe the 25th to the 29th. We were flown out Tuesday the 19th and I traveled to Los Angeles on the 15th. I came back from LA on the 26th.

VPAA Marks: Where in Australia were you?

Kendall Mesa: Wollongong. It's an hour south from Sydney.

New Business

Chair Marks: For all clubs, organizations and individuals here today, thank you for being with us! When I call your name please come to the podium and give us about a 2-minute-long description of what the funding is for or why you would like to become a club and how it will benefit the student body. All questions will be saved for the voting period.

Item A: SB 31-142: Alpha Lambda Delta

Statement: The ALD end of the year banquet was a time to celebrate members for all the hard work they have done throughout the school year. Being that ALD members have volunteered over 100 hours this school year, the banquet was a way to say "Thank you" for giving back to the community. The ALD banquet was open to all students and faculty which was a way for other students who may not be in ALD, have a chance to partake in an event that benefited the community. This banquet was just an overall thank you for all the commitment and outside work ALD members and our NAU peers have done.

Item B: SB 31-143: Amnesty International

Speaker: We're requesting reimbursement for the annual general meeting that we attended from the 1st to the 3rd. Amnesty's mission is non-partisan human rights for all. We're a global movement and because we got to go to this event we're hoping to launch our week of student action in a couple of weeks as a result of attending that conference. The reimbursement would put us in good standing to host that week of action even better than we would if we wouldn't get this reimbursement.

Item C: SB 31-144: Carly Lowy and Cynthia Coplen

Speaker: We're looking for reimbursement to go to the Rocky Mountain Psychological Association Conference next week. We are both presenting psychology research that we have done this semester at NAU and this would help us get there and learn more about psychology and what's currently going on in the field and we would bring that information back to NAU students and get them more excited about doing research at NAU.

Item D: SB 31-145: Chinese Students Scholars Association

Speaker:

Item E: SB 31-146: College Panhellenic Council

Speaker: We are the overarching leadership for all the panhellenic sororities on campus. We stand for leadership, scholarship, service, and friendship. These are all ideals we would like to develop by attending the Association of Fraternal Leadership and Value West Conference. It's a leadership conference so we can learn more about what we can do to manage our risk, develop our leadership, to bring better things to NAU's campus.

Item F: SB 31-147: Damian Lumm and James Seganti

Speaker: We are a group of five engineering individuals and we're looking to go to a Society of Automotive Engineering Design Competition next weekend in California. We're asking for funding for lodging, parking, and gas for the event. We're looking to inspire young engineers at NAU and to reflect positively on the engineering department here at NAU.

Item G: SB 31-148: Dental Hygiene

Speaker: I'm asking for funding for dental hygiene. We did it last semester and since it was a huge success we're doing a lot more this time around.

Item H: SB 31-149: InterFraternity Council

Speaker: I will also be attending the Association of Fraternal Leadership and Value West Conference. We're sending two people and bringing back the same values and things like that.

Item I: SB 31-150: Justyn Rafel Florentino and Jamie Lopez

Speaker: We're here to ask for funding to go to the 2019 Society for Industrial and Organizational Psychology Annual Conference. It's an event where several people share their research. People, especially students, going into the field will be surrounded by a lot of research that helps businesses and

the lives of workers. Examples include employee engagement, leadership, diversity, inclusion, technology, and so much more. The reason the conference is beneficial for us to go to is because we will be learning, sharing, and networking with other students who have a passion for the workplace. This can give us ways to learn about what interests us in the field or find something new that we like. Close to graduation we will be able to network with different schools that we might be interested in going to grad school at. As for the student body we will be bringing back knowledge and connections that we can share with the students at NAU. We will also be representing the NAU research team.

Item J: SB 31-151: Kappa Delta Chi

Speaker: I'm asking for reimbursement for our regional conference which was in California on March 1st through the 3rd. At the conference we were able to acquire new leadership skills that we were able to bring back. That helps the community because we hold mentor positions on campus and we're all apart of other clubs so we are able to share this with other students as well.

Item K: SB 31-152: Lauren Ellis

Speaker: I am requesting reimbursement for an annual conference for the American Association of Sexuality Educators, Counselors, and Therapists. I am going to be presenting a research project that I am first author on. I did the same thing last year in Denver and now this one is in Philadelphia. This would be beneficial to myself because it allows me the opportunity to represent our department and NAU's research in sexuality and also to meet other individuals in the field and to be able to network with other people that I might want to work with in the future. This also allows me to see what research is happening in sexuality and bring that back to NAU and the research happening here.

Item L: SB 31-153: Makayla Clark, Matthew Jarecki, and Conor Sweetman

Speaker: We are requesting funding for our trip to Las Vegas to collect our first place award in the Broadcast Education Association. The local news station in Flagstaff which is all run by students received first place in this competition for live student produced newscasts which is a huge deal. This is our second year in a row to win this award. In addition to this there is also a show happening which is a massive convention. Think Comic-Con but for broadcasters. This is a great opportunity for us to network, to explore the job fair they have, and to grow as broadcast journalists. This will benefit the NAU community because it will raise the profile of NAU in the national community.

Item M: SB 31-154: Mary "Katie" Dobrydney

Speaker: This past month I had the opportunity to attend the Oshkosh Placement Exchange where universities from across the nation go to Wisconsin to recruit student affairs professionals both new and seasoned to programs. I got the opportunity to attend as a candidate and I was able to interview with twelve different universities, one of which was NAU, and just today I accepted a position as a hall director for the University of Central Missouri all because of this exchange. I am requesting reimbursement for this event because I paid for this entirely out of pocket and I would like to be able to continue my career path into student affairs.

Item N: SB 31-155: NAU Quidditch

Speaker: We competed in United States Quidditch 2019 West Regional Championship against thirteen other college teams from across Arizona, Utah, Nevada, and California. We placed sixth overall and with the reimbursement we will hopefully reinvest in the team.

Item O: SB 31-156: Psychology Club

Speaker: We would like to attend the Rocky Mountain Psychological Association Conference which is held in Denver. It is an amazing opportunity to learn about current psychology and attend workshops about graduate school and network with professionals in the field. It's a great way to enhance our knowledge about psychology research topics and techniques.

Item P: SB 31-157: Rebekah Martz

Speaker: I want to get reimbursement for a conference I'm attending in two weeks. It's the Popular Culture Association National Conference and I'm speaking at a linguistics section in it. There's tons of different sections in this conference including educational psychology, linguistics, and it's just a really cool educational thing to be apart of.

Item Q: SB 31-158: United Christian Ministry

Speaker: We're asking for reimbursement for three of our students to attend a leadership conference called the Ecumenical Advocacy Days and we're gonna attend the conference with other groups to make sure that every American voice is heard by removing barriers to voting and making sure that every person is empowered. Also to join international partners to facilitate change that reduces violent conflict around the world. Violent conflict accounts for more than 80% of the worlds displaced people and a large amount of deaths of humanitarians. We will gain skills to bring people of diverse backgrounds to find common ground and reduce violence and protect our important civil right of voting.

Item R: SB 31-159: United Greek Council

Speaker: I am requesting funding to send three people to the Association of Fraternal Leadership and Value West Conference. They will be receiving knowledge of leadership and values which they will bring back to the Greek community as well as the NAU and Flagstaff community.

Item S: SB 31-160: United States Institute of Theatre Technologies

Speaker: We recently attended the National United States Institute of Theatre Technologies Conference. There are a lot of international opportunities there as well. That conference helps us further our careers as theater practitioners as well as helps us network through a job fair. Typical job fairs don't usually help theater practitioners and there was an amazing job fair there. There were also grad schools there and workshops that help us improve ourselves as theater practitioners. We got information that we brought back to NAU to not only help our university and our theater programs but also the community around us. Eight of us attended that conference and it was great for our organization and I believe four of us got hired and two have phone interviews with grad schools next week. It was in Louisville, Kentucky this year and it was a great conference.

Item M: SB 31-154: Mary "Katie" Dobrydney
Motion: Senator Hernandez
Second: yes
Discussion:

Senator Freitas: I wanted to raise a concern I had about funding this event. In the individual funding guidelines it talks about quality of benefit to NAU student body. I think that as ASNAU we fund events that benefit the student body and I think this one may be a little singular in helping an individual because it looks like this was to help someone secure employment whereas other events have people coming back and sharing knowledge with NAU and this was just an interview.

Senator Hernandez: From my understanding the entire point of the event wasn't just for an interview it were other educational things going on and the interview was only a part of it.

Senator Majkrazk: Also when a student graduates from NAU and is recognized by other universities its also a great thing for the school.

Senator Freitas: I don't disagree I'm just wondering about the benefit of quality to the student population. I was just wondering how it's beneficial to the student body. When I was reading over her reimbursement packet I couldn't extract very many things that could be brought back to the NAU student body.

Pass/Fail: Motion passes

Senator Nardi: I'm confused as to why we individually funded two people to attend the same conference that were in the same club and now we're funding the club.

Senator McClintock: The two that are going individually are going because of individual research that they had done outside of the club.

Kristine Heflin: This happens a lot with this conference each year because it's close and we have a lot of students studying psychology on campus. There are a lot of individual research labs that go to this conference but they don't necessarily know each other.

It is always really great to meet the Deans from the other colleges, and hang out with the students. I wanted to ask if any other Senators were interested in a 'leadership council' similar to what the Franke Business College has. I spoke with a few Senators about possibly creating such a thing within each college so that the student leaders within each building can communicate to the Deans issues students are experiencing. I think it would be a

great way to get more involved directly with students and raise awareness of ASNAU and our purpose as Senators.

- B. Senator Nardi: This week the appropriations committee reviewed more Senate bills than ever before. I received a club refund packet this week; made plans to meet with one of my organizations next week; and will attend a special Senate meeting.
