## **Photo: Dreaming of the Future**

Sunday, October 27, 2013

The class of 2018 at White Cliffs Middle School participated in a grant-funded program called GEAR-UP. Through this program, the students are exposed to multiple higher education opportunities. Students are encouraged to think about, and continually plan for their future educational goals while in this program. Recently students wrote letters to themselves that they will receive on their high school graduation day in 2018. In those letters students were asked to write their dreams and goals for the future. These letters will be sealed in a time capsule until the special day of graduation. Shown from left to right, Celine Lucero-White, Jackie Bone and Kaillie DelMonaco drop off their letters.
